ATMGurus Offers Hantle Support

Bartlett, TN — ATMGurus and Hantle USA are expanding their level of cooperation to increase customer service to Hantle USA customers. Leveraging ATMGurus' state of the art training and repair facility in the Memphis area, ATMGurus is the logical choice to handle Hantle USA training and repair for Hantle USA customers east of the Rockies.

"We've offered Hantle USA training and parts repair for quite some time. Service and support is what we do best. Hantle USA and their customers can now leverage ATMGurus as an extension of their own operations. With ATMGurus as a strategic resource located in the center of the US, Hantle USA can ensure maximum uptime to their customers in a way that isn't possible alone." says Dan Swain, ATMGurus General Manager.

Highly trained ATMGurus technicians are also well-equipped to handle repair overflow when the Hantle USA San Jose facility is at capacity. And for those customers for whom West Coast travel is inconvenient, the centrally located ATMGurus office is ideally situated for students to come and receive hands-on experience troubleshooting Hantle USA and other white-label ATM equipment in a real-world environment.

ABOUT ATMGURUS — ATMGurus features multi-brand parts, repair and training for multi-brand ATM estates of all sizes. ATMGurus stocks a large selection of new, refurbished and closeout parts, and provides repair and training for multiple brands of ATMs including Triton, Hantle USA and Nautilus Hyosung machines. For more information, visit www.atmgurus.com or call 1-888-7-ATMGURUS (1-888-728-6421) toll free in North America or +1-901-248-6175.
