

Asia 2022 Next Gen Asian ATMs

South-East Asia is one of the world's fastest-growing ATM markets : only through innovation and applying best practice can you truly harness the potential of this dynamic and emerging region. ATMIA's Next Gen Asian ATMs event will equip delegates with the skills to innovate and prosper going forward into new and unprecedented opportunities.

Join some of the most influential and forward-thinking entities in our global industry over the course of two days to be inspired, as they uncover ideas and share knowledge featuring nearly 20 key global and regional experts.

Key topics include:

Cyber Security

Future trends Cash & ATMs

Digital innovations

Next Generation ATMs -

Improving uptime and reducing operation cost

New approaches to cash and the ATM

What's on offer:

Free access to the exhibition hall over the course of the conference.

The opportunity to learn about the latest emerging products and services to ensure that their business stays competitive in today's fast-paced world.

To meet innovative industry suppliers in both Asia and the world and build on knowledge gained at the conference.
